**Re:** Sale of Apparatus

---

I am requesting approval to sell 2 fire trucks. These trucks were replaced with the recently purchased tanker.

Fire truck #1: Tanker 8-1 is a 1993 4-Guys 1800 gallon tanker. This truck was removed from service when the new truck went into service.

Fire truck #2: Engine 8-2 is a 2004 Freightliner commercial chassis with a 1,000 gallon tank and a 1,500 gallon a minute pump. This truck too was taken out of service when the new truck went into service.

2 years ago we sold a rescue utilizing Fire-Tec to see the rescue. We were able to get top dollar for that truck, selling it to a fire department in Nevada. They have a nationwide outreach to sell used fire trucks. Their commission is 10%.

I am requesting approval to sign a contract with Fire Tec to sell the above 2 trucks. We do not pay a commission unless the trucks sell and we can set a minimum purchase price.

**Re:** Sale of excess items

---

We are spring cleaning in the fire department.

Attached is a list of excess items in the Fire Department. Some of these items are 30+ years old and obsolete. If you see on the list where it says "OOS" this means out of service.

I am requesting to use the service of Gov Deals.com to sell these items. Also attached is a menu of possible commissions that would be charged. If approved I will review the items we are selling along with the possible cost and choose the best option for the fire department.

If the items are not sold I would request to properly dispose of the items.
